

# FRUIT TREES

TREES

## FRUIT TREES

---

**A**lways welcome in the garden, a wide range of fruit trees is available from Kingsdown, grown in a variety of traditional ways.

A selection of more mature fruit trees is also available as half standards and full standards. These can be supplied up to 45/50cm girth. Our sales team will be pleased to provide you with prices and availability.

**Pollination:** In urban gardens pollination of fruit trees is not usually a problem due to the proximity of so many other varieties. However, the varieties that we are showing here have been chosen so that they are all in the same groups ensuring succesful pollintation.

**Soft Fruit:** Most soft fruit bushes are available. We can supply if large quantities are required. Please enquire for prices.

## Apples

Mostly grown on MM106 Rootstock.
